

# The Vendorpedia Third-Party Risk Exchange

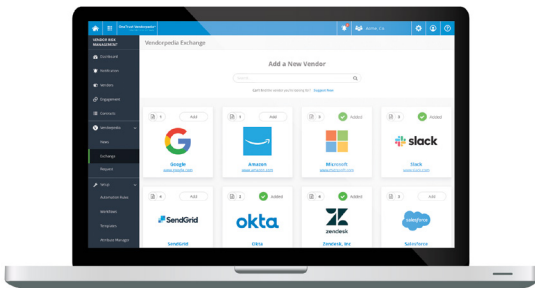

A Community of Shared Vendor Risk Assessments and Aggregated Due Diligence Information

## PRE-COMPLETED ASSESSMENTS, ON-DEMAND

*Order Access to Pre-Completed Security and Privacy Questionnaires on Thousands of Vendors*

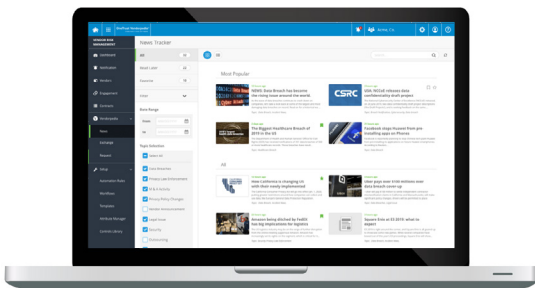

Vendors of all types, from all around the world, have completed questionnaires and made them available to Vendorpedia users through the exchange. The community of shared vendor risk assessments is rapidly growing, streamlining the questionnaire process for vendors and enterprises alike. If a questionnaire is not already in the exchange, a dedicated Vendorpedia assessment expert will work directly with the vendor to complete the assessment.

## AGGREGATED DUE DILIGENCE INFORMATION

*View Detailed Security, Privacy, and Compliance Profiles on 70,000+ Vendors*

Due diligence data in the exchange is aggregated from authoritative sources, both public and private. These sources include regulatory bodies, certification registries, sanction lists, research providers, and through partnerships with security rating services and other technologies. Due diligence data within the exchange is monitored for accuracy by a team of 40 in-house regulatory researchers.

## ONGOING VENDOR MONITORING

*Get Alerts on Critical Vendor Changes, Including Breaches and Certification Expirations*

The security, privacy, and compliance posture of the vendors you work with can rapidly change. Both the pre-completed questionnaires and due diligence data on vendors in the exchange are routinely updated as changes occur. And if a new risk arises, you'll receive a notification through the exchange.

## How To Order Pre-Completed Vendor Questionnaires Through the Exchange
